AMP SERVICE	140 Amps
LOAD HEIGHT	107cm (42")
FOOT PRINT (LxWxH)	3375mm x 5820mm x 2438mm
FOOT PRINT (LxWxH)	133" x 229" x 96"

The Lean Jet® RB FLEX⁺ immersion cleaning system is one of most flexible and scalable platforms that can be configured for a variety of parts and capacities from camshafts to locomotive engine blocks weighing over 20,000 lbs. The washer cleans using our patented washing and rinsing process of agitation, sprays impingement, hydraulic purging through immersion and rotation, and heated blow-off drying. Options such as clamp and flush, precision probes and manifolds or Blackstone-NEY ultrasonics can be added if even more focused cleaning is required.
